

January 9, 2026

Dear Neighbors:

The Board of Directors evaluated 3 different companies for the project of cleaning the detention pond at the end of Boulder Road and the entire Trail Ridge Road drainage ditch. Last night your Board of Directors awarded the contract to Worldwide Construction. This work will begin next week and weather permitting be completed within a month. Chris Osgood has been an invaluable asset to the Board as Chair of this committee and will be continuing to lead this project. Chris & I will be meeting with our neighbors whose property borders TRR ditch to discuss any impact on their area.

As always, please feel free to contact me with any questions or concerns as we move forward to resolve these issues.

Best regards,

Bernie Goudey, President
