

Annual Meeting Update

The Association's Annual Meeting will be scheduled later than initially anticipated this year. Recently, updated information regarding a significant high-impact budget item became available to the Board and will significantly influence the Association's 2026 financial planning.

In order to ensure that the most accurate and up-to-date information is available for review and discussion, the Board has determined it is in the best interest of the community to hold the meeting once this item has been fully evaluated. This approach allows the Board to present complete figures rather than preliminary estimates that may change.

Our goal is to provide clear, complete, and responsible financial information to the membership in advance of the presentation and consideration of the proposed 2026 budget. We appreciate your patience as we work through this process and will announce the new meeting date as soon as it is confirmed.
